About Me

Hello I'm Luka, result-oriented front-end developer. The thing I like most about programming is creating something from almost nothing. Im curious and I like to study, so diving into new technologies, languages, and libraries is really fascinating for me. As a programmer, I always have new things to learn and I love it.

Projects (all projects are on my GitHub)

- Tip-Calculator-App (JavaScript, html, css)
- Investment-Calculator (React.js, Styled Components)
- Expenses-Saver (React.js,Styled Components)
- Coding-Bootcamp-Sliders (React.js,Styled Components)
- Tic-Tac-Toe (JavaScript, html, css)
- Github user search (React.js)
- The planets app (React.js, Tailwind,Typescript)
